

Valerie Crocker

Memory of visiting grandparents.

Yeah, old fashioned kitchen scrub table, and it used to be that long and we used to have a bench all the way along here which the children had to sit on and they ran along there and we used to look out the window, 'cos the seat was here. , We were meant to sleep in here, when I was a child and Granny and Granddad, Granddad was over there asleep, 'cos he was quite infirm, you know, he was getting old by the time I was born, and I was meant to sleep along this bench in the afternoon; I always used to let him go to sleep and I used to take the two dogs out for a walk.
